You're great at running your business. Watching every dollar and every hour isn't your job. It's mine.

Most owner-run businesses quietly overpay on what they buy every month, and lose hours to the same repeat tasks. Nobody's job is to catch it. I bring large-company operations and sourcing habits to Small Street, at a fraction of what a firm would charge. Two ways to start: lower your bills, or get your time back.

Why me. Experience in large-company operations and sourcing: supplier negotiations, quote comparisons and building the automated reports and tools teams actually use. I work for small businesses on my own, independent of any employer.

HOW IT WORKS

1. **Free 20-minute call**
   I listen. You tell me where it hurts.
2. **Send statements and invoices**
   That is all I need. Never passwords or bank logins.
3. **I dig in**
   Careful review, then a plain-English plan.
4. **You decide**
   You act, or I do it for you. Fixed price.

I work for you, nobody else. I accept no commissions, referral fees or rebates from any vendor. My only revenue is your fee, so my recommendation is the one that is best for you. Happy to sign an NDA before you send anything.

Start small
